#### EASTERN SHORE of VIRGINIA

Where "Heaven and Earth Meet" in the words of Capt. John Smith who described this land as the best suited for man's habitation of any of the many places he had been.

We can well add that because of its level terrain, loamy soil, delightful climate, and nearness to the great Eastern markets, it is the best suited land we have ever seen for growing Fine Nursery Stock.

growing Fine Nursery Stock.

Far enough North to grow most of the Northern plant material; and yet tempered by the waters of Chesapeake Bay on the West and those of the Gulf Stream of the Atlantic on the East. The Southern materials, including many of the Camellias, also thrive here. We are 200 miles South of Philadelphia on the Pennsylvania Railway and Ocean Highway U. S. No. 13; and 50 miles North of Norfolk with which we are connected by a fast truck carrying ferry system running on a 90 minute schedule to and from near Cape Charles on the Eastern Shore of the Chesapeake and the Southern tip of the Del-Mar-Va Peninsula.

The Eastern Shore and the Del-Mar-Va Peninsula have become a great nursery center. Come and find all your wants.

### WHOLESALE PRICE LIST SPRING — 1952

Within easy trucking distance of Eastern points, but we can ship anywhere by express, freight, or truckload.

We have customers in 17 states - from Mass. to Oklahoma, and have received many compliments on our plants and our packing.

**Terms and Conditions:-** Prices are F. O. B. Exmore, Virginia, packing in boxes and bales additional, subject to prior sale, and our confirmation of the order. Terms are cash with order, or 1-4 cash with order, balance C. O. D., unless credit has been established with us.

50 plants at 100 rate; 500 at 1000 rate.

WE CAN DIG AND SHIP ALMOST ANY WEEK DURING THE WINTER, SPRING OR FALL. However, we advise you to let us have your order at once so we may reserve stock for you. Many items listed are scarce this season.

We box Azaleas and pack deciduous stock for L. C. L. shipment by Rail and to some destinations by Truck lines, but cannot undertake to box and ship larger evergreens. These are offered only for bulk shipment by truck or car load.

#### **AZALEAS**

We grow many thousands of beautiful plants, dense, and bushy. These are the finest Azalea plants we have ever raised. Grown in natural Azalea soil in the field, under full sun. Place your order now as there were not enough plants to meet the demand again last season, and sales have already taken the majority of this year's crop.

Buds have been damaged some during the winter, but this is confined to a portion of the top buds. This leaves them still good for landscape planting, and possibly acceptable for forcing.

Within easy trucking distance of Eastern points, but we can ship anywhere by express, freight, or truckload.

For Azalea orders, 1000 rates apply on all orders for 500 or more plants for bulk (truck) shipment. 100 rates apply on all Azalea orders to be packed for shipment in boxes.

Only a few thousand left, mostly Hinodegira. Order at once and early for next season.
